The year end 2019 saw Coronavirus disease (COVID-19). It is an infectious disease caused by the SARS-CoV-2 virus. Most people infected with the virus will experience mild to moderate respiratory illness and recover without requiring special treatment. However, some will become seriously ill and require medical attention. Older people and those with underlying medical conditions like cardiovascular disease, diabetes, chronic respiratory disease, or cancer are more likely to develop serious illness. Anyone can get sick with COVID-19 and become seriously ill or die at any age. The COVID-19 pandemic has affected educational systems worldwide, leading to the near-total closures of schools, universities and colleges. While the entire education system was suffering from the disease, our college and the department of English has tried hard to continue education of the college admitted students via online mode. The department has organized regular classes on Online Mode via Google Classroom, or via Teachmint App. Different what's up group are formed to share information, knowledge and to conduct test online.
